Understood perfectly. I haven't sold anything yet. I was waiting for xrp to break out over 30c.

I've heard about the Oregon Eclipse.... Will have to check it out.

Awesome festivals aside, [REDACTED] pointed out that we are running Polo @ 0.1% vs 0.2% for all the other exchanges.

Given that [REDACTED] is no longer the largest volume exchange by orders of magnitude, it doesn't make much sense. Should we raise it to 0.2% too?

Hi [REDACTED]

Thanks for the update. Unfortunately won't be there - drove to Salem Oregon to see Eclipse this year instead. It was just incredible!
Will be at BM next year.
Enjoy!

Good morning Chris,

An incredible volume day led by the Korean exchanges again.

It seems the price hike started on **Polo** last night. It might have just been a (long overdue) technical correction on XRP/BTC aided by the IRA story leaked on xrpchat. The truth is XRP has been looking cheap for a few weeks.

Will you be on the playa next week? We are camping @ Hair of the Dog Lounge (HOTD) on 5:45 and Awe. Would be great to see you!

Regards,
